

Anton Ålin

(formerly Larsson)

Data & BI Lead

0737249687@proton.me · +46 73 724 96 87 · github.com/AntonAlin

Data and BI lead with over 10 years of experience at the intersection of financial data, quantitative modelling and analytics strategy. Responsible for the data and BI agenda at Diös Fastigheter, building its data platform on Microsoft Fabric, with roots in the finance industry: seven years of investment data, fund analysis and ESG calculations at Morningstar, derivatives sales at IG Markets, and self-built ML models for equity, real estate and power markets. Skilled at turning market and business data into scalable infrastructure and decision support, whether the audience is a trading desk or a boardroom.

01 Experience

APR 2025 –
PRESENT
1 yr 6 mos

DI **Diös Fastigheter AB**
Data & BI Lead

- Own the data and BI strategy of a listed real estate company: roadmap, priorities and backlog
- Established Microsoft Fabric as the shared data platform: pipelines, lakehouse, semantic models
- Built self-service Power BI reporting for the business, leadership and the board, with no manual compilation
- Lead the AI/ML initiatives, from predictive models in Fabric to business processes and reporting
- Introduced a data governance framework with shared definitions and data quality standards

OKT 2024 –
APR 2025
7 mos

DI **Diös Fastigheter AB**
Sustainability Controller

- Owned sustainability reporting under CSRD, ESRS, GRI and the EU Taxonomy in the annual report
- Improved the processes and governance of the ESG data reported to investors and lenders

NOV 2021 –
SEP 2024
2 yrs 11 mos

MO **Morningstar Inc**
Content Researcher — Managed Investment Portfolio Data

- Product owner of the portfolio calculation engine behind 800+ ESG datapoints, built on Sustainalytics data, for Morningstar's global fund universe
- Led data collection projects end-to-end: training data teams, designing templates, coordinating with tech on IT infrastructure, and building new methodologies with Python
- Developed new calculation methodologies and supported team members on complex fund exposure questions

FEB 2020 –
NOV 2021
1 yr 10 mos

MO **Morningstar Inc**
Sales Excellence Manager, EMEA

- Coordinated cross-functional teams on RFPs and due diligence questionnaires for EMEA clients
- Built Tableau dashboards for sales leadership to track KPIs and drive revenue decisions

MAJ 2017 –
FEB 2020
2 yrs 10 mos

MO **Morningstar Inc**
Data Research Analyst / Associate Analyst — Managed Investment Data

- Managed data relationships with fund companies: acquisition channels and point of escalation
- Subject matter expert on investment data, ETFs, pension products, MiFID II and Solvency II
- Trained new colleagues; aligned Nordic business requirements with global Data & Development Centers

OKT 2016 –
MAJ 2017
8 mos

AA **Own account**
Independent equity and options trader

JAN 2015 –
OKT 2016
1 yr 10 mos

IG **IG Markets**
Sales Executive

- Client-facing sales of CFDs and other leveraged products to active retail investors in the Nordics

EARLIER

Trader Intern, RGG ADM-Gruppen (2013) · Investment Intern, Hartland Financial, USA (2012)

02 Selected Projects

LIVE TOOL

Nexus Options Lab

Black-Scholes-Merton Monte Carlo Plotly.js

Visualization tool for multi-leg European options: payoff, Greeks, Monte Carlo simulation, volatility surfaces, and an IV solver.

Open the tool → · antonalin.github.io/options-lab

Portfolio Allocator

Walk-forward ML Ledoit-Wolf Deflated Sharpe

Add a ticker and the model sizes it. Six volatility estimators and a walk-forward ML model are blended by NNLS, the covariance is Ledoit-Wolf shrunk, and the book is optimised long-only against risk parity, HRP or minimum variance. The return tilt only switches on once rank IC clears a Newey-West t above 2, which it rarely does.

Swedish Listed Real Estate Model

LightGBM Python Automation

EPRA NRV/CEPS peer ranking across 11-14 companies: ML layer and composite scoring on verified fundamentals (Q1/Q2 2026 interims). Weekly email; tracked against outcomes, results on request.

Alpha Satellite

LightGBM XGBoost

Microcap equity pipeline. Ensemble with purged walk-forward cross-validation and inverse-volatility risk parity. Evaluated out-of-sample; results on request.

SE2 Electricity Price Forecasting Terminal

Quantile Regression Microsoft Fabric

LightGBM/XGBoost quantile forecasts, built on Microsoft Fabric.

LIVE TOOL

ÅreWeather

Elevation-resolved Ensemble ML Open-Meteo

Elevation-resolved forecasts for ten Åre peaks, refined by ML trained in the browser.
